

## Introduction

MDV Vehicle Fleet Limited is a privately owned Tanzanian company specializing in comprehensive fleet solutions with a strong focus on road safety, operational efficiency, and risk reduction. Our mission is to help organizations streamline their transport operations, enhance compliance, and achieve sustainable performance through innovative, reliable, and cost-effective services.

We offer a full spectrum of fleet management solutions, including the assessment and supply of professional vehicle drivers, specialized drivers training, and thorough vehicle inspections to ensure safety and compliance. Our services extend to vehicle and equipment rentals, fleet telematics for real-time tracking and performance optimization, fleet professional car washing to maintain a clean and presentable fleet, and also provide comprehensive vehicle servicing, repairs, and maintenance, along with the timely supply of high-quality vehicle parts and accessories to minimize downtime and keep your operations running smoothly.

At MDV Vehicle Fleet Limited, we combine expertise, innovation, and reliability to serve as a trusted partner for logistics providers, corporates, and institutions. Whether managing a large fleet or offering individual transport support, we deliver the tools, talent, and technology needed to keep operations moving safely and efficiently. Our approach is data-driven, compliance-centered, and performance-oriented, ensuring that every service we provide adds measurable value to your bottom line.

## Our Belief

### Our Vision

To redefine fleet management in Tanzania by creating a fully integrated transport ecosystem—where skilled drivers, intelligent technology, well-maintained vehicles, and reliable support services work seamlessly together to deliver unmatched safety, efficiency, and business growth.

### Our Mission

To transform fleet management by combining expert drivers, precision vehicle care, advanced telematics, and reliable support services—helping businesses cut risks, control costs, and keep their operations moving safely and efficiently.

### Ownership

We take full responsibility for our work—from driver conduct to vehicle performance. No excuses.

### Precision

Every action is intentional. We rely on data and standards, not assumptions or shortcuts.

### Safety

We prioritize safety in everything—training, inspections, and daily operations. It's not up for negotiation.

### Flexibility

We adapt to your business. Our services are shaped around your needs, not the other way around.

### Results driven

We focus on delivering results, not hype. Consistency and reliability are our loudest statements.

### Sustainability

We build systems that last—reducing risk today while protecting tomorrow's operations.

## Firm Structure

## Vehicle & Equipment rentals

We provide reliable and versatile rental solutions tailored to meet your transportation and project needs. Whether you require a vehicle for a few hours, several days, or an extended term, we offer both self-drive and chauffeur-driven options to suit your preferences.

Our diverse fleet ranges from fuel-efficient compact cars to spacious SUVs, ensuring comfort, performance, and safety for every journey. All rentals come with flexible plans, competitive rates, and dedicated customer support for a smooth and hassle-free experience.

### Specialized Equipment rentals

We also supply a range of high-quality equipment to power your operations, including:

Excavator

Backhoe Loader

Forklift

Water Bowser

Roller compactor

Lifting Crane

Telehandler

## Drivers training

At MDV Vehicle Fleet Limited, we offer practical, high-impact driver training programs designed to elevate safety, responsibility, and performance on the road. Our flagship course—Defensive Driving Training—equips drivers with the skills to prevent accidents before they happen.

Through scenario-based sessions and real-time coaching, our training sharpens not just driving ability, but awareness, judgment, and risk management—traits essential for both personal and professional drivers.

### What Our Training Covers

#### Hazard Awareness

Teaching drivers to anticipate and react to road threats before they become accidents.

#### Road Ethics & Compliance

Reinforcing the importance of road safety laws and responsible conduct.

#### Decision-Making Skills

Real-time simulations to improve judgment under pressure.

#### Fuel-Efficient Driving Habits

Training to help reduce operational costs and environmental impact.

#### Vehicle Handling & Emergency Techniques

Practical exercises for braking, swerving, spacing, and recovery.

## Vehicle Inspection

Our vehicle inspection service ensures that every vehicle under your operation meets the highest safety, technical, and regulatory standards. We conduct thorough assessments to detect mechanical issues, ensure legal compliance, and improve overall roadworthiness.

Whether you manage a large fleet or operate a single vehicle, our inspections are tailored to reduce risk, improve vehicle performance, and protect lives on the road.

**Regulatory Compliance**  
Ensuring your vehicles meet government and transport authority standards.

**Technical Assessment**  
In-depth checks on brakes, tires, lights, emissions, steering, and more.

**Safety Assurance**  
Identification of hidden hazards to prevent accidents and downtime.

**Roadworthiness Certification**  
Supporting insurance, licensing, and corporate safety documentation.

**Pre-Purchase & Condition Reports**  
For used vehicles or before asset transfers.

## Fleet Telematics

Our Fleet Telematics service empowers businesses to take complete control of their vehicle operations through real-time monitoring, intelligent tracking, and data-driven insights. By combining GPS technology with advanced telemetry systems, we give you the tools to manage your fleet more efficiently, reduce operational costs, and improve safety.

**Track Vehicles in Real Time**  
See exact locations, routes, and movements at any moment.

**Monitor Driver Behavior**  
Gain insights into speeding, harsh braking, idling, and more to improve safety and efficiency.

**Optimize Routes**  
Reduce travel time, fuel consumption, and maintenance costs through smarter route planning.

**Improve Asset Security**  
Receive instant alerts for unauthorized use or route deviations.

**Access Detailed Reports**  
Make informed decisions with automated reports on mileage, fuel usage, and performance trends.

## Our Services

- Assessment & Supply of Vehicle drivers
- Drivers Training
- Vehicle inspection
- Vehicle & Equipment rentals
- Fleet telematics
- Car washing
- Vehicle servicing, repairs, and maintenance.
- Supply of vehicle parts and accessories.

## Assesment & Supply of Vehicle drivers

We assess, vet, and supply highly professional drivers to handle your transportation and delivery tasks. Our process ensures that every driver is thoroughly screened and road-tested before placement—giving you peace of mind, improved safety, and operational efficiency.

### Cost saving

Significant cost reductions in recruitment, payroll, benefits, and driver training.

### Focus on core business

Delegating driver management enables you to focus on your core activities and strategic objectives.

### Access to expertise

The service gives you access to our expert knowledge and resources on driver management and compliance.

### Reduced risk and liability

We manage driver-related liabilities, including workers' compensation and legal matters, on your behalf.

### Flexibility and scalability

Make it easy for you to adjust your driver's capacity to meet fluctuating demands.

### Driver Assessment

Each driver goes through background checks, license validation, road tests, and, where necessary, defensive driving training.
